

Yurii Babii

Lead Android Engineer

Nice, France | yurii.babii.work@gmail.com | +33 6 29 87 52 91 | linkedin.com/in/yuriibabii | yuriibabii.github.io

SUMMARY

Lead Android engineer with 8+ years building business-critical, high-scale Android products. At DraftKings, lead delivery and reliability work for a native Android Sportsbook serving 2.5M+ users, including a migration from Xamarin to Jetpack Compose. Strong in Kotlin, Coroutines, Flow, MVVM/Clean Architecture, real-time systems, performance, and observability. Comfortable owning technical decisions from design through rollout, improving engineering standards, and working closely with product partners. France-based and open to CDI.

CORE SKILLS

Android & architecture: Kotlin, Jetpack Compose, Coroutines, Flow, MVVM, Clean Architecture, Hilt, Dagger, Jetpack Navigation, Kotlin Multiplatform (KMP), Compose Multiplatform

Real-time & reliability: REST, WebSockets, performance profiling, Perfetto, regression gating, New Relic, Crashlytics, Datadog, incident response, on-call

Quality & delivery: JUnit, CI/CD, release and quality processes, coding guidelines, branching strategy, Firebase, Azure, AppCenter, Google Play Console

Leadership & collaboration: technical ownership, architecture and standards, delivery coordination, team building, hiring, mentoring, release trains

AI-assisted engineering: Claude Code, Codex, Cursor

EXPERIENCE

DraftKings Inc. - Senior Software Engineer (Android)

October 2021 - Present | Remote

- Led the migration of a large standalone app from Xamarin to native Android with Jetpack Compose, strengthening the reliability foundation for a Sportsbook serving 2.5M+ users.
- Project captain on multiple initiatives: owned scope, drove technical delivery, and coordinated the Android team through release.
- Supported resilient, real-time product operation across tens of on-call shifts; diagnosed and resolved incidents under Super Bowl-scale load (about 59K bets/minute; 12M+ bets).
- Built New Relic dashboards and alerting, and defined a metric, log, and trace taxonomy adopted by the team.
- Drove performance work through regression gating and continuous monitoring of in-app and end-to-end metrics.

Epicentr K - Head of Mobile Application Development

July 2020 - March 2021 | Ukraine

- Launched the in-house mobile apps department from zero at Ukraine's largest retailer (about 75 hypermarkets).
- Set architecture and standards; established CI/CD and release trains; hired and mentored the team that shipped multiple internal apps.

Epicentr K - Lead Xamarin Developer | March 2020 - July 2020 | Ukraine

Led cross-platform mobile development and set technical direction ahead of the department launch.

Trinetix LLC - Senior Xamarin Developer | May 2017 - March 2020 | Ukraine

Built cross-platform mobile apps for enterprise clients in finance and health.

High Marks - Xamarin Developer | January 2017 - May 2017 | Ukraine

First engineering role: cross-platform iOS and Android; started full-time at 19.

PROJECTS

UAdemy - Founder / Lead Developer | March 2022 - May 2023

- Founded an EdTech startup and led a remote team of 6 through wartime constraints while maintaining steady delivery.
- Shipped a mobile product to 25K+ installs and a 4.9/5 rating from 796 reviews.
- Established engineering foundations from scratch: coding guidelines, branching strategy, incident playbooks, CI/CD, and release process.

Animoosh - Kotlin Multiplatform (KMP), Compose Multiplatform

Shared codebase across Android, iOS, and web for a wellbeing product supporting military personnel with psychological challenges, sleep, and stress.

TomorrowPack - Flutter, Dart | MVP shipped

Built the MVP end to end for a reusable-packaging startup.

EDUCATION, CERTIFICATION & LANGUAGES

Bachelor's degree, Computer Software Engineering - Lviv Polytechnic National University (2016-2019)

Associate's degree, Computer Engineering - Khmelnytsky Polytechnic College (2012-2016)

Certification: Jetpack Compose Masterclass - Philipp Lackner

Languages: English (Full Professional), French (B1), Ukrainian (Native)
